CLUBSELECT
MANAGER

With ClubSelect Manager, you can view which members are currently at your club and take actions to engage them. Easily gain instant access to your member's data to review their club usage and custom demographic data. Manage events or a la carte reservations conveniently from your phone, tablet, or desktop using ClubSelect Manager's mobile optimized solutions.

USAGE BY MEMBER

Whether it's a week or over a year ago, drill down to specific details of any operational business day to obtain member's POS checks (both open or closed checks). Easily switch to see their 'to-date minimum usage' or birthday.

USAGE BY OUTLET

Compare sales by POS outlet, based on any business operation day with visual representations and charts.

PROMOTE CUSTOMER SERVICE

Easily connect to any specific member's custom demographic data to automatically contact them via email or phone while they are at the club.

Based on the member's activity at the club, follow-up on their day with a survey or satisfaction inquiry and give special notes to club staff (ie free dessert for Mrs. Smith's birthday!). Share messages and news items with staff directly via their mobile devices.

Stay connected to your members with real-time data at your fingertips
