PAYROLL

Unlike outsourced payroll solutions, managing your clubs own payroll processing gives you the ability to reduce costs and customize your payroll on the fly. With clubsystems group's Payroll application, today's complex payroll requirements are simplified with an easy to use, intuitive, Windows® based application.

CUSTOMIZATION

Establish multiple companies as needed; create all related department and define all wage types and earnings - hourly, salaried, commission, tips and other as needed. Track multiple pay rates for hourly employees. Specify multiple direct deposit bank accounts per employee. Easily maintain all the necessary State and Local Withholding Tax tables.

INTEGRATION

Automatically import time from FB POS or select third party time clocks, and import tips from Accounts Receivable. Payroll journal entries per pay period transfer directly to the General Ledger. Utilize direct deposit for multiple accounts per employee.

EASE OF USE

The csg Payroll module allows flexibility of varying pay period cycles: Weekly, Biweekly, Semi Monthly, and Monthly. Automatically import time from FB POS, and import tips from Accounts Receivable. Easy batch processing allows for quick entry of hours and earnings with overrides of rate or department as needed. Payroll provides for automatic calculation of federal, state and local withholding, employer matching funds and unemployment taxes. Easily reprocess pay checks for one or several employees with automatic update of liabilities and reversal of previous entries.

The process of managing your payroll and labor costs couldn't be any easier
